2017-2018	**Bachelor of Science with Honours in Software Engineering at University of Stirling (Scotland)** - Java - Basic web design and user interfaces (Javascript, HTML and CSS) - Statistics - Management
2015-2017	**International Baccalaureate diploma programme at Kolding Gymnasium, HF og IB-school** - Final grade: 42 out of 45

Work experience

April 2022 -	**Student developer at Unik System Design** .NET development with frontends in Blazor or WPF
May 2021 - April 2022	**Student developer at Hesehus** Primarily, web shop development using different versions of .NET both C# and VB. Once in a while, I had to do JavaScript tasks on older solutions.
August 2019 – April 2021	**Student developer at Ajour System A/S** I work primarily with a C# plugin for Revit, but also occasionally with an Aurelia/Typescript SPA and accompanying .Net Web API.
April - December 2016	**Volunteer at Frivillighuset** (Translation: House of volunteers) Frivillighuset is a place for ethnic minorities (mainly refugees) to get help with their daily lives in Denmark. I was mainly helping children with their homework. Other tasks ranged from helping people learn Danish to assisting them with filling out official forms and applications.
Spring 2013	**Office assistance at Brands of Scandinavia** (Clothing company) Preparing and controlling delivery notes.
Summer 2012	**Packing of muffin forms** (Fin Form)

Languages

I speak English and Danish at a native level.

My wife is German, so my German is constantly getting better. I understand most German, but still find speaking difficult.

Interests

- **Video games:** My main game is League of Legends which is a strategy game, where five players battle against five other players. This means teamwork and coordination is key to victory. It also requires fast reactions and split-second decisions in high-pressure situations.
- **Board games:** I like most board games from short social games to big strategic games, which take several hours. I have a weekly board game day with my friends where we play.
- **Pen and paper roleplaying:** I mainly play Dungeons and Dragons, but I have also tried a variety of other systems.
